

Adit Bhimani

aditbhimani007@gmail.com ❖ (437) 215-1751 ❖ Brampton, ON

EDUCATION

Western University

BSc, Computer Science

September 2022 – April 2026

London, ON

- Activities:
 - Western Google Developer Society Club
 - Western Sports Analytics Club
 - Western Basketball Club
 - First-year Residence Council Representative
 - Western Gujarati Students Association
 - Western Computer Science Undergraduate Society

PROJECT EXPERIENCE

- NBA Webscraping Project January 2024 - present
 - Using the Beautiful Soup 4 web scraping library, I am currently working on a project that will take publicly available data on NBA box scores and data to predict NBA games outcomes.
- Personal Website December 2023 – present
 - While learning the languages of React, JavaScript, and SCSS, I am currently making a personal website portfolio.
- Sudoku Solving Game May 2024
 - Developed a Sudoku game and solver using Python, Pygame, integrating backtracing algorithms, with a graphical user interface that supports real-time user interaction and puzzle-solving capabilities
- Masterminds Game July 2023
 - This is a small game (similar to Wordle), where the system selects a colour out of a premade list, and the user has to guess it.

OTHER EXPERIENCE

- Western Technology Consulting Case Competition January 2024
 - Collaborated with a group of 3 others to develop a general solution to combat racial bias in the dermatology field, alongside training dermatologists and aspiring medical professionals to learn about these bias(s).
- Western AIInnovation Case Competition November 2023
 - Worked together with a group of 3 others to develop general solution to a business startup case where it was required to use two variations of AI (Machine Learning and Natural Language Processing)

TECHNICAL SKILLS

- **Skills:** Microsoft Word, Excel, Access, C++, Python, HTML, JavaScript, C, Unix, IoT (Internet of Things)
